

OUR MISSION

The Full Disclosure Project is a non-profit collective of transparency advocates focused on the release of advanced and improperly classified technologies that could immediately bring an end to the needless suffering of many, as well as an increased level of peace, prosperity and equality for people around the world.

OUR MAIN OBJECTIVES:

1. Make the mainstream public aware of the strong evidence that highly advanced technologies are currently being suppressed.
2. Work to release this technology fully, freely, and immediately.
3. Seek a Full Disclosure of all “unacknowledged programs.”

The Cover-up: UFO Technologies

Mercury & Gemini Astronaut, Colonel Gordon Cooper

A saucer flew right over [us] and landed out on the dry lakebed. [The cameramen] went out with their cameras towards the UFO. I had a chance to hold [the film] up to the window to look at it. Good close-up shots. There was no doubt in my mind that it was made someplace other than on this earth.---Video interview. Transcribed in *Disclosure*, Steven M. Greer, MD., ed., pp. 226 - 227.

FAA Division Chief of Accidents and Investigations, John Callahan

The UFO was bouncing around the 747...Well, I've been involved in a lot of cover-ups with the FAA. When we gave the presentation to the Reagan staff, they had all those people swear that this never happened. But they never had me swear it never happened. I've got a videotape. I've got the voice tape. I've got the reports that were filed.---Video interview and *Disclosure*, pp. 80 - 85.

Russian Air Force, Space Communications Center, General Vasily Alexeyev

They came up with a table with pictures of all the shapes of UFOs that had ever been recorded – about fifty....The study of UFOs may reveal some new forms of energy to us, or at least bring us closer to a solution.—*Disclosure*, pp. 345 - 347.

Former Director of CIA, Admiral R.H. Hillenkoetter

Behind the scenes, high-ranking Air Force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense. To hide the facts, the Air Force has silenced its personnel.—*The New York Times*, Sunday, February 28, 1960: "Air Force Order on 'Saucers' Cited," p. L30. See also *Disclosure*, p. 58.

Corporate Manager of Fairchild Industries, Spokesperson for Wernher Von Braun, Dr. Carol Rosin

Von Braun [rocket science pioneer] told me [in 1974] the reasons for space-based weaponry were all based on a lie. He said the strategy was that first the Russians, then the terrorists are going to be considered the enemy. The next enemy was asteroids. "The last card is the alien card, and all of it is a lie."....I was at a meeting in Fairchild Industries in the War Room. The conversation [was] about how they were going to antagonize these enemies, and there was going to be a Gulf War. Now this is 1977!—pp. 255 - 259.

More Cover-up: Advanced Technologies Developed from UFOs

US Army, General Stephen Lovekin

Colonel Holomon brought out a piece of what appeared to be metallic debris. He explained that this was material that had come from a New Mexico crash in 1947 of an extraterrestrial craft....I got an opportunity to travel with the President [Eisenhower]. He was very, very interested in what made [the UFOs] go....But Eisenhower got sold out. He realized that the [study of these technologies] was not going to be in the best hands. That was a real concern.—Video interview and *Disclosure*, pp. 230 - 236.

US Marine Corps, Captain Bill Uhouse

The [flight] simulator was for the extraterrestrial craft they had—a 30 meter one that crashed in Kingman, Arizona, back in 1953. I was inside the actual alien craft for a start-up. There are probably two or three dozen [flying saucers] that we built.—pp. 384, 385.

US Army, Ph.D. in Nuclear Engineering, Colonel Thomas E. Bearden

Probably 50 inventors have invented [virtually cost-free energy systems]. If we use these systems, we can clean up this biosphere. But the entire structure of science, industry, and the patent office are against you....The more powerful the agency, the more they resort not only to legal, but to extra-legal means to suppress their competition.—*Disclosure*, pp. 534–542. Disclosure Project, Founder and Director, Steven M. Greer, M.D.

The situation is so dire that senior Joint Chiefs of Staff leaders in the Pentagon who I have briefed have no more access to such projects than any other civilian—unless they are on the 'inside.' The government is really quite outside the loop. We have insiders and scientists who can prove that we do in fact possess energy generation systems capable of completely and permanently replacing all forms of currently used energy generation and transportation systems. Every single person who is concerned about the environment and the human future should call for urgent hearings to allow these technologies to be disclosed, declassified, and safely applied.—*Disclosure*, pp. 14, 15, 567,. Suppressed Technologies - Situation Overview

Over the past 20 years an increasing number of vetted whistleblowers and insiders have come forward revealing secret space program activities comprising joint USAF, NRO, NSA, and DIA collaborations, as well as other interagency and corporate defense contract projects which have broken away from the executive chain of command structure, and any congressional oversight, through unacknowledged special access programs (USAPs), which are so compartmentalized that they have evaded the scrutiny of elected representatives for decades.

Mountains of evidence of highly advanced technologies, including through leaked and FOIA documents, photos & videos, radar trace logs, and first hand corroborating testimony, have been collected by researchers and journalists through what has been termed the "UFO Field". However, the best available evidence is often ignored by journalists as a result of separate counter-intelligence efforts to encourage ridicule, fantasy, and confusing or contradictory information, in order to maintain secrecy through social engineering methods, all for justifications unlawfully deemed as representing our national defense interests.

It is true that a consensus has formed around the reality of extraterrestrial visitation, both past and present, at the highest levels of each military and intelligence structure, and that the theological implications have been traditionally deemed too drastic to allow the wider release of UFO related technologies and narratives to the public. However, the ongoing technological and mental evolution of human cultures, and the practical potentials of the advanced energy generation, propulsion, and materialization technologies now possessed within compartmentalized projects, are leading to what has been termed "disclosure" being a substantial possibility in the very near future.

The technologies to be unveiled have the potential to kick start an economic/industrial revolution unlike any seen before, leading to a vast reduction in poverty and environmental destruction currently occurring throughout the globe.

The different disclosure narratives being planned are limited in scope to partial or half-truths in order to lessen the initial fear and shock factors, which is why it is important that information leaks be made available to establish a larger base of aware individuals to assist others during this possibly traumatic disclosure process, and to accelerate the advent of a new star trek type civilization, free from illusions of scarcity.

We seek Full Disclosure, however, with the understanding that the spiritual advancement of man towards a more accepting and forgiving consciousness baseline, is the critical component that can make this transition a relatively peaceful one. It is for this reason that a suppressed consciousness science video is also included in the attached DVD, which also contains many summaries of the hard data not easily found online or elsewhere.

Impending Announcement of Advanced Ruins Found in Antarctica

(From Dec '16 - Mar '17 articles by Dr. Michael Salla. Source: Exopolitics.org)

Many have been pondering the significance of recent visits to Antarctica by prominent officials and individuals offering puzzling explanations for their travel there. On November 9, U.S. Secretary of State, John Kerry, landed in Antarctica, during the peak of the U.S. Presidential Election. Why would the serving Secretary of State leave the U.S. at such a critical time just to observe global warming patterns in Antarctica?

Even more mysterious was the December 1 medical evacuation of astronaut Buzz Aldrin out of Antarctica, after a surprise visit there, apparently to become "the oldest person to reach the South Pole at the age of 86." Earlier on February 18, 2016, Russian Patriarch Kirill visited a Russian outpost in Antarctica, reportedly to see penguins. Just over a month later, on March 23, President Obama visited the southern Argentinian resort town of Bariloche, which is claimed to have been the secret hideaway of Adolf Hitler after World War II. Bariloche became the unofficial capital of a breakaway German civilization based in Antarctica, and it is claimed that there is a hidden tunnel system from there to Antarctica. Also noteworthy, Presidents Eisenhower and Clinton have visited Bariloche.

The real reason for all these mysterious visits to Antarctica, and nearby locations such as Bariloche, is about to be revealed according to Secret Space Program whistleblower, Corey Goode, who claims to be receiving intelligence briefings from an Air Force official involved with an interagency secret space program comprising the USAF, NRO, NSA, and DIA. Corey says he was given time sensitive intelligence about an impending official announcement of the discovery of ruins from a futuristic civilization found in Antarctica.

After a recent tour of ongoing excavations, Corey reported that an extraterrestrial civilization, identified by him as Pre-Adamites, first arrived 55,000 to 60,000 years ago and established outposts all over Antarctica which notably has a land mass almost twice the size of the contiguous United States. He described them as standing approximately 12-14 feet in height and possessing elongated skulls.

Corey disclosed that excavations are occurring in multiple places in Antarctica by different nations, which in some cases are in direct competition to get the most advanced technologies. The goal is to eventually disclose some of these, but many technologies, especially those that are clearly extraterrestrial in origin will not be released, at least to begin with. Corey said that all the nations involved in the Antarctica excavations are capable of making a disclosure announcement on their own, but they are all participating in negotiations to do so in a coordinated manner.

Corey thinks the Antarctica disclosures could be leveraged as a distraction and begin in tandem with prosecutions of the elites involved in pedophilia, human trafficking and other crimes, which includes the blackmailing of leading politicians, academics, industrialists and military officials. He says that the recent Trump administration action to sack 46 District Attorneys was due to their inaction in moving forward with such prosecutions.
